NOTICE FOR RESIDENTS AT 786 NEWMARKET LANE

Hand Delivered September 30 2019

The Third Crossing project team is providing notice about the installation of a noise fence along the rear of your property

Starting the week of October 14th the Third Crossing noise fence along the back of your property will start to be installed. Installation of the noise fence will occur over several weeks anticipated to continue until the beginning of November.

Due to the proximity of your existing fence along the back of your property, the City would like to meet with you to discuss your fence in relation to the property lines and coordinate logistics of how your fence will be impacted.

Please send us an email and feel free to request an onsite visit with our technical team. If you are a tenant of this address, we can meet with you upon request. Please send us an email and cc your landlord as well to help us connect with the landowner.

Feel free to email us if you needed more info and to RSVP for the site visit to the Third Crossing email at thirdcrossing@cityofkingston.ca

Sincerely,
Third Crossing project team
