

Near-neighbour presentations available now

Thank you to all those who attended our latest near neighbour meetings on June 25 (east approach) and June 26 (west approach). We appreciate you taking the time to come and ask questions as we move closer to the start of construction. At these meetings the project team went through the latest work activity, the evolution of how we're going to construct the bridge and the environmental considerations of the project.

Residents interested in seeing more information on the updated construction method for the bridge, our environmental considerations related to how we're building it and the early work happening on both shores please see the presentation and the meeting minutes on our website at

<https://thirdcrossing.cityofkingston.ca/>

Upcoming engagement on environmental considerations

This summer the project team will be hosting two open houses to discuss our work with Parks Canada and to showcase the evolution of the design and new construction methods for the bridge. The team recently hosted two near neighbour meetings providing information on the construction methods. Those [presentations can be viewed on our website and at this link.](#)

Continued communication through construction activity

We appreciate your patience as we start to have more site presence on both the

east and west approaches. As work continues we want to ensure we have good communications with our near neighbours. If at any time you would like to speak with member of the project team, please email us at thirdcrossing@cityofkingston.ca and a team member will be in touch.

About The Third Crossing Bridge

Once completed, the new 1.2 km bridge will connect the east and west sides of Kingston over the Cataraqui River. The two-lane bridge will improve emergency services, increase active transportation through a multi-use pedestrian and bike pathway, create greater business connectivity and enhance the quality of life for the residents and visitors of Kingston. The bridge is jointly funded by the Government of Canada, the Province of Ontario and the City of Kingston.

Keeping You Connected
